**Subject:** [External] Dominion's anti-solar proposal - docket # 2020-229-E

Good evening,

It is so discouraging to hear how when families try to find a way to save money, there is always someone out there trying to find a way to take even more from them. In most cases it seems to be those individuals who are in line to gain financially in one way or another. Greed NEVER prospers. Everyone in agreement of this proposal needs to step back and take a better look because you never know what tomorrow will bring for you. You can be doing well today but when the tables are turned, oh what a time!

I am not in favor of the increase and pray for those who are trying to make it even more difficult for families to survive, especially during these times. The fee may not be much for some but it is a weeks worth of groceries for many.

Respectfully,

Mrs. Tanayia C. Vereen
